Grafton Viaduct

Grafton Viaduct is an 'OO' gauge layout set in the modern steam/diesel era. It is a 'hands on' layout for the younger members at exhibitions and can be operated by a single operator with motorized point control and section breaks or used as a double 'race track'.

The layout was conceived to inspire the Junior and senior members who have been involved in various aspects of the layout.

- Dimensions:** 7ft 6ins * 3ft 6ins A 2ft passage around the layout is useful for access.
Tables: Free-standing with viewing to all four sides.
A small table is useful for rolling stock.
Power: Single 13Amp socket.
Operators: one/two
Transport: Small van or Trailer, There are not many cars that can accommodate the 3ft 6ins*
3ft 10ins * 12ins size
- Expenses:** Fuel for the vehicle and refreshments for the operators.
Set-up time: half hour
Insurance: Value of layout and stock £250.
